🔧 PROFESSIONAL SUMMARY

Experienced MERN stack developer with a proven track record of building scalable web applications, adept at creating user-friendly interfaces and optimizing backend systems. Passionate about staying abreast of the latest technologies to drive innovative solutions. Committed to delivering high-quality software.

🏢 PROFESSIONAL EXPERIENCE

Odoo India Pvt Ltd, Software Developer

Jun 2023 – present | Gandhinagar, India

- Software Developer at Odoo, specializing in OWL projects for business intelligence.
- Led the development of "Spreadsheet," a powerful web app for data analysis and visualization, akin to Google Sheets.
- Worked with event-driven and command-query separation architecture, managing core and UI plugins while exposing plugin states for user interfaces.
- Engineered a history management system for core plugins, enabling seamless undo and redo operations.
- Ensured application stability through comprehensive test suites using Jest and QUnit, reducing errors and boosting overall reliability.

Odoo India Pvt Ltd, Software Developer Intern

Dec 2022 – Jun 2023 | Gandhinagar, India

- During a focused 2-month training, I learned Odoo Framework (similar to Django), PostgreSQL, and OWL Framework (like React).
- After training, I dived into live projects, fixing issues and enhancing functionalities, demonstrating quick adaptation and valuable contributions in a professional environment.

🎓 EDUCATION

Indus University, B.Tech, Computer Science Engineering

Jul 2019 – May 2023 | Ahmedabad, India

- Maintained a commendable Cumulative Grade Point Average (CGPA) of 9.2 throughout the academic program.
- Engaged in hands-on projects and coursework, gaining practical skills in JavaScript programming, web development, database systems management.

📁 PROJECTS

Codeems (MERN Stack eCommerce) [🔗](#)

- Full-stack eCommerce platform built using MongoDB, Express.js, React.js, Node.js, Redux for state management, and JWT for authentication.
- User authentication, PayPal integration, and an admin panel for streamlined Users, Orders and Product management.
- Feature-rich shopping cart, product reviews, and dynamic top products carousel.
- Implemented product search, pagination, and a streamlined checkout process.

The Wild Oasis (Dashboard Application) [🔗](#)

- User-friendly hotel management dashboard using React.js, React Query, Supabase, and Recharts.
- Implemented strong authentication, authorization and user profile customization for hotel employees.
- Engineered booking monitoring with check-in/check-out capabilities and detailed status monitoring.
- Insightful charts and statistics for quick monitoring of bookings, sales trends, and occupancy rates.
